## موجز

I am an enthusiastic and optimistic person who always embraces positivity in all types of my life. I love programming and code science, and I am working as a php backend developer in ryadh group. I am always looking for new technologies and the best and easiest ways to get work done. In the world of programming, I discovered that there is more than one way to implement the project, but there is one way to make it the best. This is always my goal and my means. I have Experience in

Building Web application using laravel framework,  
MVC ,PHP ,HTML, CSS, JavaScript, MYSQL, and Web Services.  
Solid knowledge of Object-Oriented Programming Concepts,  
encapsulation, Inheritance, and Polymorphism.  
I love sports, football, swimming, reading and social life.
